## Tips on Baking for the 4-H Summer Showcase

### Mixing/Baking

- Always use fresh ingredients, such as baking powder, oil, whole grain or regular flour.
- Date your containers when you buy them.
- Overmixing causes a tough product with large holes or tunnels or a top that is peaked.
- Under-mixing causes streaks of flour and uneven rising.
- Make sure dry ingredients are sifted together and liquid ingredients are well mixed.
- No paper liners are allowed for muffins.
- Dust raisins lightly with flour so they don't stick together or sink to the bottom.
- No toppings are allowed.
- Additions of dry cereals, raisins and nuts help to disguise problems of overmixing, especially in muffins and quick breads.

### Cookies

- Do not place cookies too close together on baking sheet.
- Measure dough for each cookie using a small scoop or measuring spoon, so that size is equal.
- Trim outer edge away from bar cookies before cutting into squares. Use a ruler to measure so that size is equal.

### Storage/Freezing

- Avoid recipes that do not keep or travel well in hot, humid weather.

- Cool product completely on racks before storing.
- Use proper wrapping - freezer containers, wrap and foil.
- Wrap each item separately.
- Bake extras and bring with you to judging in case of upsets and WHOOPS accidents!

### Recipes

- Recipes must be on a 3 x 5 card typed or handwritten legibly. You may use a computer printout and securely tape to the card. Put your name on the card.
- Include the complete recipe including yield - ingredients first, then instructions. Include each step - ie: if you grease top of bread before baking, etc.
- If you reduce the amount of an ingredient(s), Indicate original amount of reduced ingredient(s) and then the reduced amount on the recipe card.
- Place recipe card in a small plastic bag to protect them and place in the bag with the food exhibit or staple to the outside..

### General

- Judges expect the recipes to match age and ability - don't use same recipes from year to year.
- Use a large enough plate to display items. A paper plate is satisfactory if it is firm. Foil covered cardboard is also good. Do not use a plate that must be returned. Place everything in a large plastic bag - recipe and product.

## Selecting & Preparing Vegetables for Exhibit

### *Harvest your Crop, with Care.*

- 1) Loosen root crops with a spading fork before pulling. Avoid tearing the flesh or stems.
- 2) Pick off all tomato stems so they will not poke holes in other tomatoes.
- 3) A sharp knife is helpful in harvesting peppers, eggplant, the vine crops and many leafy vegetables.

### *Harvest Enough to Make Your Exhibit.*

- 1) Gather several times as many good specimens as you think you will need.
- 2) Select the most uniform ones for your exhibit.
- 3) Harvest lettuce, endive, escarole and chard the morning of exhibition day because they wilt quickly.
- 4) Harvest onions 7-10 days before the fair and dry them in the sun. When properly cured, the tops can be easily cut off.

### *Trim Correctly.*

- 1) Cut off the tops of all root crops about 1" above the roots.
- 2) Trim the tap root so they are all the same length.
- 3) Remove the small fine roots on carrots and beets.
- 4) Trim any excess stump from cabbage, lettuce and other leafy vegetables. Do not cut off all the outer leaves from cabbage. Husks can be trimmed off one side of sweet corn or taken all the way off but have all ears the same.

### *Exhibit the Right Number.*

Plan to exhibit the exact number of vegetables called for. Check the Fair Book, as the number may differ with various fairs.

### *Wash or Brush the Vegetables.*

- 1) Select and harvest only clean vegetables if you can. Cleaning will not harm any vegetable if it is done carefully.
- 2) Clean peas, beans, cucumbers and muskmelons with a very soft brush.
- 3) Use a soft damp cloth for fruit with a waxy surface such as eggplant, pepper, tomatoes, and watermelons.
- 4) Root crops may need washing. Use lots of water and your hands to wash root crops.
- 5) Do not wash head lettuce, endive, cauliflower, or cabbage. Trim off the soiled leaves, but don't scalp them.

### *Select for Size, Shape and Color.*

- 1) Select those that are alike. The first ripe tomatoes or carrots you pull from your garden will seldom be alike in size, shape and color. A good way to select a plate of vegetables is to place them in a row on a table or on the floor with the big ones at one end and the small ones on the other. Then select on the basis of shape and color.
- 2) Avoid carrots and potatoes with greening caused by exposure to sunlight. Check the seed catalog for examples of "typical shape".

### *Storage Before Fair.*

- 1) After you have harvested and prepared your vegetables, it may be necessary to store them for a day or overnight.
- 2) Keep root crop, leafy vegetables, sweet corn and peas at low temperature (40°-45°F). Mom's refrigerator usually gives these conditions. Before placing leaf vegetables in the refrigerator, place them in a plastic bag.
- 3) Potatoes, tomatoes, eggplant, peppers and the vine crops will keep well for a day at medium temperatures (60°-70°F).

### *Wrap, Pack and Display Correctly.*

- 1) Wrap your exhibit before taking it to the fair. You may have an excellent plant but damage while transporting can easily make it unworthy.
- 2) Newspaper is a good wrapping material. Wrap each vegetable separately and then wrap the five or twelve, etc., that go together in one bundle.
- 3) Pack them firmly in a strong container. Always pack the firm vegetables on the bottom. Don't pack cabbage, pumpkins, watermelons, etc., on top of tomatoes, eggplant, peppers, etc.
- 4) Label every exhibit carefully until you can attach the double entry card. Make sure your name, department, section, class number, kind, variety and age as of January 1 and years in project area are on the card.

## Animal Exhibitors showing REGISTERED livestock & dairy animals:

- Upon arrival & weigh in, Market Lambs must have no more than 1" of wool and MUST be dry.
- Market Animals will be weighed in at the time of arrival on July 27<sup>th</sup> at the 4-H Showcase

For 2024, all Market Animals will have 4-H tags put in their ears upon weigh in at the Showcase. This is to help keep everything organized for the Market Animal Sale. If you have any questions please contact Michelle at [mlc353@cornell.edu](mailto:mlc353@cornell.edu) or 607-664-2571.

## Livestock Health Requirements 4-H & Cloverbud Animals

Please make sure you've read & understand the 2024 Health Requirements for each animal species. <https://agriculture.ny.gov/system/files/documents/2023/02/fairhealthrequirements.pdf>

It is **YOUR responsibility** to meet the health regulations. The regulations will be enforced for the protection of all exhibitors. If you have any questions, contact the CCE Office. **All** cattle, sheep, swine, and goats exhibited at the Showcase must have a valid certificate of Veterinary inspection (CVI). For New York State Animals the CVI must be issued and **signed** by a **Category 2 Accredited Veterinarian** on or after May 1 of the current year. Each animal must be individually and positively identified on the CVI.

**There are no exceptions.** Contact your veterinarian to arrange for a CVI.

All sheep or goats exhibited at the Showcase must be identified with USDA approved individual legible scrapie program identification.

All animals consigned to the **4-H Market Animal Sale** must comply with all drug withdrawal requirements. Notify your veterinarian that your animal is consigned to the sale **before** starting any treatment.

## PROPERTY RULES

NO ALCOHOL

NO DRUGS

NO SMOKING/VAPING

NO DOGS

## Showcase Inspection Procedures:

An Assigned official will be reviewing all “certificates of veterinary inspection” (CVI) for compliance with state regulations and for verifying individual identification of exhibited animals presented on a valid CVI. A CVI is required for cattle (beef and dairy), goats (dairy and meat), sheep, and swine.

Your CVI **must accompany the animal upon arrival to the 4-H Showcase.** Do not drop your animal off at the Showcase without the CVI with

the animal. Send your CVI with your trucker if you are arriving after your animals.

Please have your CVI convenient for them to be checked. **Also it would be extremely appreciated if the 4-H member was available to present your animal to the person inspecting your CVI.** The person inspecting your animal must match your animal's identification (ear tag or in some sheep and goats cases legible tattoo) to the CVI.

### Sore mouth in Sheep and Goats

If evidence of sore mouth (contagious ecthyma) is found on any sheep or goat, the entire exhibit including the affected animals shall immediately be removed from the Showcase premises with the holding pens cleaned and disinfected immediately after removal.

### **Animal Identification:**

It is very important that each animal is properly identified. Individual identification is necessary under New York State Animal Requirements. All animals must carry positive individual identification such as an official USDA approved ear tag. All goats or sheep exhibited must have legible scrapie identification.

---

## All Animal Exhibitors - Some Tips on Assuring Your Animal is Not Sent Home

If an assigned officials think that an animal looks "sick", they will take their temperature and perform a physical exam. It doesn't matter what might be wrong with an individual animal; if it looks sick or looks like it MIGHT have a contagious disease, then he/she has the right to not allow it in the barn or have it removed once the Showcase has started. It is the same with any contagious disease. The individual doesn't have to PROVE that an animal has one disease or another. The individual can make their decision on the SUSPICION of an infectious disease. This has been the case for many years. Nothing has changed.

1. **Make sure you have the necessary paperwork and vaccinations found in the Showcase Premium Book and on the CCE website at [www.putknowledgetowork.org](http://www.putknowledgetowork.org)**
2. **Make sure that all the identification matches on ALL paperwork and is legible.**
3. **No Warts – even one little wart** will warrant your animal being sent home.
4. **No Ringworm**
5. **Mucus – Any mucus from the nose that is yellow, white or green**
6. **Hairy Hoof Warts or any sign of limping or sore feet**
7. **Any resemblance to Pink Eye – even a bruise from trucking that could be pink eye – the worst will be assumed.**
8. **For Sheep and Goats - any lesions characteristic of sore mouth** and any sheep or goats originating from the same flock are considered exposed and must be removed from the grounds. Goats and sheep without proper scrapie identification will be sent home.

Some other tips include make sure you clip your animal before going to the Showcase. This gives you a good chance to thoroughly check your animals for any abnormalities. While at the Showcase, DO NOT share brushes, feed pails, water buckets or any other equipment. Sharing is good in certain areas, but it is a very good way to contract unwanted diseases so don't use others equipment.

If anyone has questions about the health requirements, please contact the CCE Office.

**If this occurs, it would be up to the 4-H family to make arrangements for where to take their pigs since they cannot stay on the Showcase grounds. Please note:**

We know that many hogs have diarrhea after they get to the Show when they are perfectly healthy due to stress, change in diet, or change in water. **PLAN TO CARRY**

**YOUR WATER FROM HOME.**

Remember, that PEDv usually affects piglets causing them to die when they are very young. Older animals may show diarrhea, but usually recover. **If any of the pigs have diarrhea at the home farm, then no pigs should come to the Showcase from that farm.** A veterinarian should be called to examine any sick animals on any farm and let the decision whether to have the pigs tested for PEDv be that of a veterinary professional.

## Past Events

### Spring Gardening Class

On April 14<sup>th</sup> was the yearly Spring Gardening Class at Hemlock Ridge Farms in Avoca. This year we learned about different ways to start plants, different tools, and how to use a milk jug as a greenhouse to start seeds. We also got to get our hands dirty and learn how to plant seeds right into the garden. Thank you so much Jessie Slayton for opening her Garden up to us and teach the kids so much about gardening. Each youth also got to take home seeds to plant their own garden thanks to Lowe's of Canandaigua for donation of seeds.

### Wood Working Class

Is that a pig? Yes, it is, on April 6<sup>th</sup> 4-Her's came together to make animal planters that will be used the 4-H Showcase. Older youth got to use power tools to cut out two cutouts of each species. Then some of the younger kids got to sand and pant all the animals. Want to see what the finished project looks like? Head out the Showcase on July 25-28<sup>th</sup> and you will see them there!

### Animal Crackers

The annual Animal Crackers program provides New York youth with fun, hands-on, science-oriented learning experiences on Animal Science topics. This workshop is for 4-H members interested in learning more about their favorite livestock, companion or pet animal species; emphasis on different species groupings and activities varies annually. Participants will learn about different aspects of animal care, interact and exchange information with faculty, staff, students, professional producers, industry experts, and more, utilizing the unique facilities of Cornell University. Hands-on workshops are planned for each species group..
